SEMINAR LIMITED TO 14 WORKING TEAMS
WORKING ENTRIES WILL CLOSE WHEN LIMIT IS REACHED.
AUDITORS ARE UNLIMITED AND CLOSE JUNE 15, 2019
NO REFUNDS AFTER JUNE 1, 2019

What To Expect:

This workshop will help handlers succeed in the training and running of better land and water blinds. The focus of this workshop is solely on blinds and will only utilize marks as they influence blinds. Throughout each day, working teams will perform various drills to improve lining, casting and handling on blinds. In addition, multiple types of blinds will be run each day. Blinds will be run that represent different levels of difficulty and each blind will be rated so that handlers may chart their progress during the seminar.

In addition to yard and field work, discussions will be held on topics such as; how elements will affect blinds, understanding the mechanics involved in setting up a good blind and learning how to design good training blinds. Evaluating blinds at tests and developing a strategy for success will also be discussed.

Auditors are strongly encouraged and Mitch welcomes questions from the audience. If you and your dog have not advanced to the point of beginning blinds, watching Mitch guide each working team through various drills and blind work will help give you a greater understanding of why your foundation work is so important and will help you establish your goals for advancement.

PLEASE NOTE: Each working handler may run two dogs, but only one dog will be used on a given concept, skill or drill.

Mitch White – Head Field Trainer/Key Note Speaker:

Mitch has been training retrievers for field work since 1988. His program has been developed to utilize an approach that works with all breeds of retrievers. One of the main ingredients of his program is fairness to the dog. Mitch believes in putting the work into teaching the dog to create a skill set to aid the dog in making decisions. Poor decisions are corrected and good decisions are praised.

Since Mitch trains many different breeds, he often has to get “outside of the box” from popular retriever training methods. Mitch also gets a lot of dogs in for “rehab” work. These are dogs that have been in other programs and have developed issues that have prevented them from progressing. Mitch has had tremendous success turning these dogs around so they become confident workers again.

Since 2004, Mitch’s clients and students have earned countless field titles each year, at all levels, including several Master National Qualifiers and Finalists and dogs with Field Trial placements.

Seminar Requirements:

Working teams must meet the following requirements to participate:

1. Handlers must have a basic understanding of a blind retrieve.
2. Working dogs must have a solid Basics foundation.
3. Working dogs must have a remote sit and solid obedience.
4. Working dogs must have an understanding of handling, they should be working on the Double T and have run basic sight blinds.
5. Working Dog that are through transition drills well enough to run a basic cold blind will get the most out of this seminar.
